

Rich did an amazing job with our sidewalk and patio. He completely transformed our back yard. We now have an attractive and enjoyable outdoor living environment.

Rich took the time to understand the look and functionality we were going for, keeping in mind the budget we established. Rich knocked it out of the park, exceeding our expectations! The work was started and completed as planned. Since this was a replacement of our older patio and walkway, the work was extensive, with several challenges. Rich overcame all of those challenges, in addition to fixing drainage issues and hatchway water leakage issues in the process.

The end result is functional and beautiful. We couldn't be more satisfied!
